DETAILED ACTION

Drawings

1. The amendment to the specification sent on 15 May 2006 fixed the deficiencies in the drawings. The drawings are therefore accepted by the Examiner.

Allowable Subject Matter

2. Claims 7 – 8, 11 – 15, 17, and 19 – 25 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 7 – 8 and 11 – 14 are allowed because Applicant has amended independent claim 7 to include subject matter indicated to be allowable by the Examiner in the previous office action if rewritten in independent form including the limitations of the base claim and any intervening claims.

Claims 15, 17, and 19 – 25 are allowed because the prior art of ^{record} ~~recode~~ fails to ^{FWF} ~~teach~~ teach or suggest alone or in combination outputting a first signal when the priority data is designated to the one of the plurality of ports at which the packet is received and a second signal when the priority data is not designated to the one of the plurality of ports at which the packet is received; and outputting a third signal when the priority of the VLAN packet or the IP packet is over a predetermined critical value and a fourth signal when the priority of the VLAN packet or IP packet is under the predetermined critical value in the case where the priority is designated to the VLAN packet or the IP packet, as required by independent claim 15, ***in combination with the other recited claim***

limitations (emphasis added). Previously cited US Patent No. 6,981,054 (hereinafter Krishna) teaches outputting a first signal when the priority of the packet is over a critical value and a second signal when the priority is under a critical value (Krishna; Col 5 Lines 29 – 44), but is silent on outputting a first signal when the priority is designated to the one of the plurality of ports at which the packet is received and a second signal when the priority is not designated to the one of the plurality of ports at which the packet is received.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Franklin whose telephone number is (571) 272-0669. The examiner can normally be reached on M-F.
